kidsLINK Adopt-A-School

Creating connections between businesses and schools

kidsLINK Adopt-A-School provides businesses with an opportunity to invest in a vital community program that supports children, families, schools, employees and employers in Southwest Montana. Creating connections between businesses and schools is about building partnerships that connect a donor’s energy and passion directly to the families and schools they love.

Why Adopt-A-School? Many industries, companies, and individuals are actively engaged in the education of youth across our region. These engagements cover a wide range of activities, including participating in school parent advisory councils, volunteering as a mentor or tutor, and providing classroom supplies. Being a kidsLINK Adopt-A-School sponsor is another way to positively engage with our children’s education by helping foster a supportive and educational environment not just during school, but after school.

How does kidsLINK Adopt-A-School deliver a long-term return on your investment?

- Your financial support helps expand your talent pool because your employees have a safe and affordable place for their children to be while they are at work.
- Adopting a kidsLINK Afterschool Program demonstrates your business’s culture of philanthropy and sense of social responsibility.
- Quality afterschool programs help prepare children to become thriving members of your future workforce. Research shows that quality afterschool programming has a positive impact on student’s academic success and social-emotional development.
- Afterschool programming enhances the quality of life for everyone in our community by ensuring kids are safe, supervised and engaged.
Your kidsLINK Adopt-A-School investment will help to ensure kidsLINK Afterschool Program:

- continues to grow with our communities
- remains affordable for so that no child has to be home alone afterschool
- provides tutoring and homework support to promote academic success
- offers engaging educational enrichment activities to spark student’s passion
- provides physical activities to strengthen student well-being and life-long fitness
- provides quality professional development for staff to help foster student’s mental and emotional well-being
- staff to child ratio remains appropriate for a safer more engaging program
- offers healthy snacks to bridge the gap between school lunch and dinner to keep kids feeling good
