SUMMER CAMP Weekly Themes

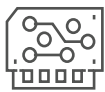

Story Writing!

Explore the magic of storytelling! Campers delve into crafting characters, shaping engaging story arcs, and bringing imaginative worlds to life. By week's end, they proudly publish their own books, showcasing newfound storytelling skills. Join us for a week of literary magic and boundless imagination.

Code this

Embark on a coding adventure! Campers learn programming fundamentals, create games, and control robots through hands-on activities. From basic commands to game design, each day is filled with excitement and discovery. Join us to unlock coding secrets and ignite a passion for technology!

Circuits

Ignite creativity in the world of circuits! Campers will explore the fundamentals of electricity and electronics. From building basic circuits to constructing complex projects, campers will embark on a hands-on journey to understand the power of circuitry. They'll learn to troubleshoot and innovate. Join us for a week of connecting wires, lighting bulbs, and unleashing the potential of technology!

3D Art

This week, budding sculptors and artists will embark on an exciting journey into the world of three-dimensional creativity. Get ready to mold, shape, and sculpt as we explore the endless possibilities of 3D art using clay and a variety of other materials. From crafting whimsical creatures to sculpting stunning landscapes, campers will unleash their imagination and bring their ideas to life in three dimensions.

Puzzles

Throughout this week, campers will immerse themselves in a world of mysteries, riddles, and Destination Imagination challenges. From unraveling mind-bending puzzles to working together to overcome creative obstacles, every day will be a new adventure. Join us as we explore the art of critical thinking, teamwork, and innovation. Get ready to unlock your potential and conquer every challenge that comes your way at our puzzles & challenges.

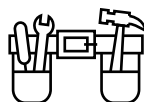

Moving Parts

This week, young engineers and inventors will dive into the fascinating world of mechanical motion. Get ready to unlock the secrets of locks, pulleys, and other moving parts as we embark on an exciting exploration of engineering and design. From understanding the mechanics of locks to mastering the principles of pulley systems, campers will engage in hands-on activities and challenges that will spark their creativity and problem-solving skills. Through fun-filled workshops and interactive experiments, campers will learn how to build, test, and innovate with moving parts.

Sound and Music

This week is all about unleashing your inner composer and sound engineer. Get ready to dive into the wonderful world of music and sound as we learn how to write captivating melodies and create mind-blowing sound effects. From crafting catchy tunes to experimenting with unique sounds, campers will embark on a musical journey filled with creativity and inspiration. Through hands-on activities, interactive workshops, and plenty of jam sessions, campers will learn the fundamentals of music theory, composition and sound design.

Building

This week, young builders and craftsmen will embark on an exciting adventure into the world of woodworking and craftsmanship. Get ready to roll up your sleeves and dive into hands-on projects as we learn how to assemble basic structures and why they work. From measuring and gluing to cutting and assembling, campers will develop essential skills while creating their own masterpieces. Under the guidance of experienced instructors, campers will explore the art of working with their hands through fun-filled activities and creative challenges.

Escape!

This week is the culmination of all the skills and knowledge gained throughout our summer adventures. Campers will revisit their favorite activities from previous weeks as they come together to design and build their very own escape room experience.
